**Unlock your life with smart solution**

Leave your home security to Be-Tech

### Various access

Be-Tech 3036D has two access solutions, PIN code or i-Button key for your convenience.

### Stainless keypad

Keypad is made by stainless steel, reliable and long lasting.

### Operation status notification

Whenever any operation is made, the LED indicator informs you what is happened through different color and blinking.

### Automatic locking

Door lock will be locked automatically after opening door a few seconds (Manual operation is also available)

### Missing key invalidation

Once you lose your key, it has no validation as long as you re-register rest of your keys.

### Anti-panic exit system

For convenience and in case of emergency, allows you to open the door by simply turning its handle from inside.

### Alarm (Incorrect PIN code attempt)

Alarm will on and last 60 seconds if anyone attempts to open the lock by key in 4 times incorrect PIN code.

### Low battery warning signal

A continuous "beep" sound during door access will alert you to replace batteries.

### Scramble code

You can meaningless number prior to the right code when there is chance of exposing it to others.

### Mechanical key override

For emergency, it can also be unlocked with a mechanical key.
